TOWN WARRANT

The State of New Hampshire

To the Inhabitants of the Town of Epping in the County of Rockingham in said State, qualified to vote in Town Affairs:

You are hereby notified to meet at Town Hall in said Epping on Tuesday, the eighth day of March, next at nine of the clock in the forenoon, to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing.

2. To raise such sums of money as may be necessary to defray town charges for the ensuing year and make appropriations of the same.

3. To see what sum of money the town will vote to raise and appropriate for roads and bridges.

4. To see what sum of money the town will vote to raise and appropriate for Memorial Day expenses.

.5 To see if the town will vote to authorize the Selectmen to borrow money in anticipation of taxes.

6. To see if the town will vote to authorize the Selectmen to sell any property taken by tax title or otherwise, providing such property is advertised fifteen days in advance of sale and such notice is posted in three public places.

7. To see if the town will vote to raise and appropriate the sum of $841.18 and the State to contribute $5,607.86 towards Class V construction and/or improvement in our town.

8. To see if the town will vote to accept the total of $913.89 of so-called Duncan Fund money allotted to the town by the State for the year 1960, to be used as required by statute.

9. To see if the town will vote to raise and appropriate the usual $1,000.00 to be used for care, maintenance and improvement of roads not elegible for Class V road funds, and to spend $86.11 of this amount together with the $913.89 of the so-called Duncan Fund money on the road between Route 125 and Route 82 in accordance with specifications of state authorities.

10. To see if the town will vote that Prescott Road be reconstructed to the extent of and according to approval of state authorities with especial attention to the steepest grades and the flat easterly of the former Wm. L. White house and for that purpose Class V and town road funds shall be used.

11. To see if the town will vote to raise and appropriate the sum of $450.00 to construct a sidewalk with curb on the northwest corner of Pleasant and Main Streets. This sidewalk to start where the improved sidewalk in front of the Masonic Hall ends and continue to the corner and thence north along Main Street the length of the Bank Building. The total distance of this new construction would be approximately 130 feet.

12. That an overseer of the poor, be elected by the legal voters annually this article to become effective in March 1961. The salary for the overseer to be $50.00 annually. The overseer, not to be a member of the Board of Selectmen.

13. To see if the town will vote to elect the Fire Chief by the people annually at the town meeting in March; this to become effective in March of 1961. The salary to be fixed at $100.00 per year.

14. To see if the town wishes to retain the recently enacted zoning laws (not to be confused with the previously enacted building code). The petitioners feel that the said ordinance is an unnecessary burden and expense to the citizens of Epping, a complicated addition to the town government, an unnecessary giving-up of property owner's rights, as well as a very difficult thing to enforce.

15. To see if the town will vote to authorize the Selectmen to file on behalf of the town an application (in form and manner required by the United States and in conformity with P.L. 560, 83rd Congress) and do whatever else may be required for an advance of $15,000.00, to be made by the United States to the town of Epping, N. H., to aid in defraying the cost of a preliminary report and plan preparations for sewerage and sewage treatment facilities of the town, and further, to see if the town will make the necessary arrangements to provide such additional funds as may be required to defray the cost of preparation of the report and plans.

16. To see if the town will vote that Article 15 shall not be put into effect before a majority of a committee consisting of the three Selectmen, the chairman of the Budget Committee and one other appointed by the Selectmen, after due consideration of all pertinent laws, agree that it shall be done, so that the town will owe nothing unless actual work on such sewer facilities is begun in the future.

17. To see if the town will vote that the foregoing articles, Nos. 15 and 16, shall expire at Town Meeting in March 1962, unless previously put into effect.

18. To see if the town will vote to give permission to the Epping Fire Department to trade or sell the HAND TUB for a HAND TUB that can be entered in competition.

19. To see if the town will vote to close the following Class VI roads, or any of them, subject to Gates and Bars as provided by law in order to reduce liability for road expense and other liability now or in the future: (1) The old short cut from Mast Road to the rear of Hedding Camp Ground, (2) The short cut behind the house of John Warren from the North River Road to the Hedding Road, (3) New Lane from the Prescott Road to the home of Bessie Manter on Rundlett Hill, (4) Rundlett Road from the east end of New Lane to the Nottingham Square Road (leaving open the road toward McPhee's), (5) French Road from the part of Blake Road closed in 1948 to the house now or formerly of John Dodge, (6) The road from behind the Edmond St.Laurent farm to Chicken Street leading to West Epping.

20. WHEREAS, at the 1958 Town Meeting, the town voted "$3,200.00 for a new fire alarm system (a complete air system)" and later a part of the system was installed at a cost of $2,760.00 leaving a balance of $440.00 but the box at the fire headquarters (Rose Morel residence) which would complete the system was not put up and such a box can now be installed within the amount of the original appropriation.

THEREFORE IT IS VOTED that the town now complete the fire alarm system by installing the said box and pay for the same from the moneys already appropriated for the purpose.

Given under our hands and seal, this 20th day of February, in the year of our Lord nineteen hundred and sixty (1960)

EDMOND G. BLAIR,
GEORGE E. MOQUIN,
GORDON F. RAYMOND,
Selectmen of Epping, N. H.

A true copy of Warrant—Attest:

VETERANS' EXEMPTION

"No person shall be entitled to the exemption provided by Section 29 unles he shall have filed with the selectmen on or before April fiftenth of each year an application therefor signed under penalty of perjury on a form which may be obtained from the selectmen."

Printed above is a portion of the law governing property tax exemption to servicemen or widows of servicemen which must be followed if exemption is to be allowed in 1960. The Exemption Law has also been revised so that only Residential Real Estate as defined below can be exempted from Taxation.

"Residential Real Estate; That Real Estate that a person occupies as his principal place of abode together with any land or buildings appurtenant thereto. Provided further that the resident qualified for exemption, excepting those with service connected disability shall not be delinquent in the payment of any taxes due the State of N. H. or any political subdivision thereof."

HIGHWAY AGENT REPORT FOR 1959

EPPING LIBRARY REPORT

It is with pleasure that I submit the following report of a very busy year of the Epping Public Library for the year 1959.

A total of 188 new books have been added to the library, twenty of which were gifts. Eighty-one new readers have registered as borrowers. The total circulation has been 9,208. Books loaned—9,043, magazines loaned—103 and encyclopedias—62. This total is an increase from 4,728 in 1958.

A great number of library books are way over due, and school children seem to be the worst offenders. In spite of many post cards sent out, I have had no response. May I suggest that when we housewives do our spring cleaning, that we should keep an eye out for books stamped Epping Free Public Library, and return them as soon as possible regardless of how long it has been due. No questions asked—I much prefer to have the books back on the shelves than to collect the fine.

I have attended four neighborhaad meetings sponsored by the New Hampshire State Library for rural libraries; one of which the Epping Library was host.

The first three grades of the West Epping school visited the library one afternoon.

On National Library Week, book exhibits were on display at the Saint Joseph's Catholic Church and the Epping Community Church. I spoke on the Congregational Church's reading program, "Adventures in Reading" at the April meeting of the Ladies Aid Society of the Epping Community Church.

I gave a book review in Exeter in January, 1960, to the Ladies Circle of the Baptist Church in Exeter.

On National Book Week in the fall, I had a large display of new children's books. The children stood around and examined the books and literally "drooled" over them, anxiously waiting for the day that they could take the books home to read.

I attended the three weeks course for librarians at the University of New Hampshire in July for the second year. I received a scholarship from the New Hampshire Library Association in order to attend. My courses of study were on Children's Literature and Cataloguing and Filing.

A Neighborhood Exchange group was formed in August with the Nottingham and Brentwood libraries, mainly to exchange books with each other to give a wider circulation to the books that otherwise would remain on the owner's shelves for 5 - 10 years, waiting for a new group of readers to borrow them.

A Friends of the Library group was formed in October, started by the Epping Women's Club. A reading service for shut-ins has been started. All those who wish to receive books to read and are unable to get to the library are asked to contact me, the librarian, or Mrs. Chester Goodrich, chairman of the group.

Also through the Friends of the Library, the Mitchell Memorial Hospital in Brentwood has been supplied with books for the patients. These books are changed every 3 - 4 weeks for a new collection of books. It is hoped that enough money can be earned to purchase a book cart for the hospital. Mr. and Mrs. Lawrence Caraway have given a metal cabinet in which to keep the library books at the Home.

A collection of 25 books were sent to the 6th grade at the Central School for extra reading and book reports for the students there.

Regular visits from the State Book Mobile have been made every 8 - 10 weeks throughout the year and 100 - 150 volumes have been borrowed each time.

Each month I have made a report on the activities of the library, or a book review has been sent to the "Mustard Seed", a monthly publication put out by the Epping Community Church, that is sent out to about 400 Protestant famliies in the community.

A gift subscription to the magazine, "The Catholic Digest", was made to the library by the Catholic Daughters Association of Epping. The Ladies Aid Society of the Epping Community Church gave a subscription to the magazine, "Together". "The Flower Grower" magazine is being sent as a gift to the library from the Epping Garden Club. A subscription to the "Book List", an American Library Association publication, was given by the trustees of the library. It is a very handy little booklet published twice a month with brief reviews of all books published, recommendations for buying and catalog listings are given. A tremendous help to me.

In conclusion, I would like to say that I have enjoyed serving you all in the library and hope that in some way I have been able to be of some assistance to you.

Respectfully submitted,

MRS. IRENE M. HUTCHINSON,

Librarian.

Shed Fires	2		
		Total Calls	52

Twenty-two oil burners permits were issued during the year 1959.

Two (2) homes were inspected at the request of the Public Welfare Office.

I would like to thank the firemen for their fine co-operation in keeping our fire losses down to the lowest in years. Your time and efforts to bring this department up to standards is beginning to show and at last the Epping Fire Department is gaining the respect of other departments in our Mutual Aid set-up.

I am proud and consider it a privilege to serve as your Fire Chief.

RICHARD W. CASTLE, Chief
Epping, N. H. Fire Department

5001

RULES AND REGULATIONS

of the

NEW HAMPSHIRE BOARD OF FIRE CONTROL

Covering The Installation Of

POWER OIL BURNERS

and

OIL BURNER EQUIPMENT

Issued By

BOARD OF FIRE CONTROL

OFFICE OF FIRE MARSHAL

Concord, N. H.

July 1, 1950

RULE 4:

Fuel oil in excess of five (5) gallons shall not be kept or stored in any building or other structure without a permit having been obtained therefor from the Chief of the Fire Department. The Chief of the Fire Department may grant a temporary permit for the keeping and use of the fuel oil under such terms as he may prescribe.

RULE 5:

Whoever desires to install any fuel oil burner shall first make application to the Chief of the Fire Department and obtain a permit therefor. Upon receipt of an application for the installation of an oil burner,

the Chief of the Fire Department shall grant a temporary permit authorizing such installation. Upon completion of the installation, the temporary permit shall be cancelled and provided that all rules contained in these Regulations have been complied with, the Chief of the Fire Department shall issue a permit for the storage of oil and the operation of the equipment.

RICHARD W. CASTLE, Chief

Epping, N. H. Fire Pepartment

FOREST FIRE WARDEN'S REPORT

PREVENTION IS EVERYBODY'S BUSINESS

The year 1959 was fortunate from a forest fire standpoint. New Hampshire had the best record in the nation. Fewer acres were burned, suppression costs were substantially reduced and damage to woodlands held to a minimum. The record resulted from a combination of favorable weather conditions, an alert warden service and a cooperating public.

Yet, despite all this, there still persists a disturbing note.

58%, or 6 out of every 10 fires in 1959 were caused by careless smokers and debris burners.

10%, or 1 out of every 9 fires was caused by children.

Careless, indifferent, thoughtless and independent minded individuals and failure of parents to properly supervise children and keep matches out of their reach, annually cause these unnecessary fires which cost large sums to extinguish and cause extensive damage. The elimination of these three causes of fires would radically change this picture. The rules are simple—

1. Before burning, secure a permit from your local forest fire warden—the law requires it.

2. Be sure to properly supervise your burning.

3. Make certain your fire is DEAD OUT before leaving it.

4. Don't throw lighted matches, cigars and cigarettes from moving vehicles—use your ash tray.

5. Don't burn at home—Use your town dump and save yourself much possible difficulty, both personal and financial.

Number of permits issued 81

SCHOOL WARRANT

THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the School District in the town of Epping, New Hampshire qualified to vote in district affairs:

You are hereby notified to meet at the Town Hall in said district on the eighth day of March 1960, at nine o'clock in the forenoon, to act upon the following subjects:

1. To choose a Moderator for the coming year.

2. To choose a Clerk for the ensuing year.

3. To choose a Member of the School Board for the ensuing three years.

4. To choose a Treasurer for the ensuing year.

5. To determine and appoint the salaries of the School Board and Truant Officer, and fix the compensation of any other officers or agent of the district.

6. To hear the reports of Agents, Auditors, Committees, or Officers chosen, and pass any vote relating thereto.

7. To choose Agents, Auditors and Committees in relation to any subject embraced in this warrant.

8. To see what sum of money the district will raise and appropriate for the support of schools, for the salaries of school district officials and agents, and for the payment of statutory obligations of the district, and to authorize the application against said appropriation of such sums as are estimated to be received from the state foundation aid fund together with other income; the school board to certify to the selectmen the balance be-

tween the estimated revenue and the appropriation, which balance is to be raised by taxes by the town.

9. To see if the School District of Epping will vote with the other Districts of Supervisory Union No. 14 to provide for the services of a Helping Teacher as provided in R.S.A. 186:11, XXII, XXIII, XXIV; as amended 1957, R.S.A. 252:2; to commence July 1, 1960.

10. To see how the School District will vote on one of the following proposed Secondary School possibilities:

a. To see if the Epping School District will petition the State Board of Education to become a member of a Cooperative School District for Grades 7-12 which may include in addition to the District any two or more of the following Districts: Brentwood, East Kingston, Kensington, Newfields and Stratham.

If the preceding paragraph is adopted, to see if the Epping School District will elect two representatives to serve on an interim committee with elected representatives of other School Districts, for the purpose of preparing a financial budget for the operation of the proposed Cooperative School District.

b. To see if the School District will vote for the construction, equipping and furnishing of its own secondary school, Grades 7-12.

c. To see if the School District will vote to close Epping High School and transport the pupils to Sanborn Seminary on a tuition basis; starting with the school year 1961-1962.

11. To transact any other business which may legally come before this meeting.

Given under our hands at said Epping this 22nd day of February 1960.

BEATRICE G. MARCOTTE,
FRANCES J. LAVOIE,
ROBERT A. LUCY,
School Board

A true copy of Warrant—Attest:

SCHOOL PLANNING COMMITTEE REPORT

The school planning committee which was formulated at the last school meeting, held its first meeting on May 13, 1959. At this meeting it was decided that the group would be divided into three small groups of three members each to form a closely knit team. Each of these individual groups would study one particular problem, and in so doing, not be confused by problems relating to the other groups. One group studied all of the possibilities of forming a cooperative district with other towns. One group studied the possibilities of sending the students out of town on a tuition basis; and the other group studied the possibility of the town building our own high school.

The school board presented us with the following problem: "Within the next 6 years, of the eight grades of elementary students, six grades will be double grades (i.e. upwards of 45 students each) which calls for fourteen or fifteen rooms to be made available. There are but nine rooms available at the present time. The ninth room recently became available by dividing a large room with a partition into two small rooms.

It is estimated that the first grade next September will be a double grade. The present first grade is a double grade, making the second grade next September a double grade also. This means four rooms needed for the first and second grades alone. (Total of 94 pupils.)

The estimated seventh grade for next September is forty five pupils. The eighth grade next September will have 49 pupils. This means four rooms needed for the seventh and eighth grades.

The third, fourth, fifth, and sixth grades will remain single grades. However, there is but one room available for these four grades. We need three more rooms to house these pupils.

Future use of the Elementary School plant will be limited to four grades, due to the space requirements of these doubling grades.

Larger classes are beginning to enter high school. It is a recognized fact that the present High School plant does not have sufficient work areas for proper use as a future High School. There are only four actual classrooms, and three other very small areas. This building is structually sound, and economical to heat and maintain. It would serve very well as an extension of the Elementary school plant. The two buildings could house all future enrollments from the first through the sixth grades without any expansions or additions in the forseeable future. The basic problem facing the School Planning Committee, is to provide adequate housing for grades seven through twelve.

The various committees held many meetings to try and come up with a workable plan. It was decided early in the year that we would refrain from making any specific recommendations, but we would present all of the facts that were available, and let the voters choose what they thought to be the best plan for Epping.

The tuition committee reported that the only school that would entertain any interest in accepting our high school students on a tuition basis was Sanborn Seminary of Kingston, N. H. Their curriculum was acceptable, they have a fine gymnasium, and many of the undesireable factors of last year have been either corrected, or eliminated. Their tuition rate is $400.00 per year, per student. This does not include transportation to and from Kingston. The $400.00 tuition fee represents a 12½% increase over last year's tuition fee.

The cooperative school study group met with representatives of the towns of Brentwood, East Kingston, Stratham, Kensington, and Newfields, to determine the

feasibility of joining with these towns to build a school that would house our students from the seventh grade through twelve. This group came up with a plan to build a high school large enough to house a total of 720 students. The present enrollment of the six towns involved is 585 (7 through 12). The cost of this building was tentatively set at $850,000.00. Using the equalized valuation of the several towns as a basis, Epping's share of the cost would be 26%, or $221,000.00. This could be amortized on a 20 year bond issue, and after state building aid assistance (55%) would leave a payment of $12,707.50, including interest. This figure would be reduced by $386.75 per year as the principal was reduced.

The operating budget (current expense) was broken down so that we arrived at a figure of $405.00 per pupil for high school students, and $338.00 per pupil for the 7th and 8th grade students.

The curriculum would call for 20 academic courses; 12 vocational courses; and 3 fine arts (Music-Art). It should be pointed out that while Epping has 26% of the Equalized Valuation, we have 30% of the students of the towns mentioned.

Another cooperative possibility was discussed that should merit our serious consideration. That is the possibility of "buying into" the Oyster River Cooperative school district. This would be a Kindergarten through 12 cooperative with the towns of Lee, Madbury, and Durham participating. Under this plan we would have 21% of the equalized valuation, and 33% of the students. Averaging these two figures, our participation would be 27% of the costs. In an arrangement such as this, our school buildings would become a part of the cooperative district. After appraisal, this would leave Epping with approximately $216,000.00 to be raised, to buy into and become a part of the Oyster River Cooperative District. Of this, the state building aid program would pay 45%.

This would leave Epping with a $5,940.00 payment each year. On this type of a plan, the law provides that there shall be no interest charged on the loan.

The operating budget (current expense) based on 461 students would be approximately $290.00 per student, or a total the first year of $134,000.00

Members of the committee studied the curriculum of the Oyster River Cooperative District, and found it to be quite complete in every respect. Kindergarten is now a part of the Oyster River program, but we did not include it in our costs estimates.

As this report goes to press, it has been understood by the committee that Newmarket might be interested in forming a co-op district with Epping. This possibility is being studied further.

The group that studied the possibility of Epping building their own school came up with a dual plan. One plan was to build a 9 through 12 "comprehensive" high school with a gym. The other plan was to build a 6 through 12 "comprehensive" high school without a gym. The cost in each case would be about the same, $213,000.00. State building aid on this plan would be 30%. This would result in a payment of $14,910.00 the first year. This would be reduced by $372.75 each year as the principal was amortized. The 4 year high school would house 225 pupils; the 6 year school would accommodate 340 pupils. The operating budget (current expense) would be $68,000.00 the first year for the 6 year school, which would be $357.00 per pupil (190).

Providing our children with the very best educational facilities, at the lowest possible cost, is the prime responsibility of every parent and taxpayer in the town of Epping. It is a very difficult decision to make; we must weigh all the facts, work out a plan of action, and then work together to see it through to completion. We

cannot delay any longer. We have been delaying these past few years, until now it is absolutely mandatory that we decide on a definite course of action.

I want to thank the members on the committee that spent many long hours diligently attending meetings, and compiling information to bring all of this information before you the parents and taxpayers of Epping. Consider well the problem that faces us. Vote according to the dictates of your conscience.

Respectfully submitted,

AUDITOR'S CERTIFICATE

This is to certify that I have examined the books, vouchers, bank statements and other financial records of the treasurer of the school district of Epping, N. H. of which the above is a true summary for the fiscal year ending June 30, 1959 and find them correct in all respects.

R. DEXTER GOODRICH,
Auditor

August 19, 1959

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Epping:

I herewith submit my report on the status and needs of our schools:

The schools are providing an adequate education for the pupils at the present time. This I believe is due in large part to the staff. However, they have not received the help they should have, nor do they have all the aids and guides they need to better provide for the various learning experiences that should be presented in the classroom. This is not the responsibility of any one in particular but the fact is evident and therefore we should analyze it carefully.

To begin with, just what type of education do you want for your children? Are you satisfied when they will be able to read the newspapers or magazines, to keep an account of money earned and spent, to be able to write a letter; or do you desire that they might be given the type of education to be able to go to college or other school of specialization. Do you wish them mass educated, or do you hope for some specialized and individualized type of education. Do you want them trained to cope with a home and job or educated to work, think and act as an alert free citizen? Answers to these questions are important because they provide the School Board and Superintendent, as well as the staff with a framework within which to work. Where do our schools fit in relation to the previous questions? Presently I would say somewhere in between. There are things being taught in the classroom that could just as well be learned at home. This means homework and time spent at home with your children learning what material was presented at school, as well as giving the child information in conjunction with it. You the parent are a teacher as well as the person at school. There are things that

should be presented in the classroom that are not presently provided. This is due to many factors, such as classrooms too large to provide individual attention, teachers not having a specified area in which to work and many more.

By now you have an idea of what my philosophy is. To state it a little more clearly, I would like to see each child prepared to cope with the complexities of twenty years hence; and to be able to sift the good from the bad, be prepared to make decisions based on past knowledge and skills and provide a worthwhile home, as well as provide civic responsibilities as called up. It isn't necessary to review the terrific progress of the last twenty years to create a concept of what the next twenty years will be like. This is being done for you every day. Children should have a more specialized and individualized education to withstand, understand and help formulate the future.

What are some of our needs? Those that should be provided as soon as possible are:

1. Reduction of class size to 25 or a maximum of 30.

2. The development of a program of minimum essentials. This would provide criteria for promotion or non-promotion and assist in the establishment of a certain block of work for the year.

3. The development of a program of studies in each subject area and in each grade. This will help to unify what is taught from grade to grade as well as act as a guide for the teachers.

4. The development of a basic series in reading, arithmetic, science, social studies, English, spelling, etc. This will eliminate gaps in learning and provide better basic material for the pupils.

5. A study and re-valuation of our reporting procedure. Does this present method tell you, the parent,

what you really should know? I personally do not feel that it does.

6. The development of an adequate permanent record system.

7. Adequate supervision of staff and schools. It's humanly impossible to cover this area adequately. An addition to the staff is necessary to carry on adequate and thorough assistance for the staff. I have averaged 2,000 miles a month between 8:00 A.M. and Midnight, attempting to make the rounds.

I have found it necessary to recommend a helping teacher. This person could carry on some of the office functions I am presently doing, thus permitting me to be in the schools more frequently, and as the New Hampshire R.S.A. 186:11 states "To give helpful advice, counsel, and assistance to teachers, pupils and parents . . . as a constructive means of improving the educational growth and development of children, solving pupil problems of retardation and maladjustment, adopting the program of studies to meet the needs . . . bring resources outside of the school to classroom teachers, pupils, parents and community.

The following should be studied and considered:

1. A class for the mentally retarded
2. A better guidance program
3. Classes for the academically superior
4. A program for inservice training for teachers

To conclude, I will exert every effort to see that the best is provided for your children within the framework you create. It will be a pleasure to continue working for you as I have confidence that you want your child to be able to compete with any other child, regardless of the place or community in this shrinking world of ours.

THAYER D. WADE,
Superintendent of Schools

SCHOOL HEALTH REPORT

To the Superintendent of Schools:

The Nurse's role in school health in recent years has undergone drastic changes. She no longer is the only one to check fingernails, teeth, etc. This is more the province of the teacher who is with the child daily. Minor cuts and bruises are also taken care of by the teacher.

Epping is most fortunate in having teachers interested in health education, and this interest is carried out to a great extent in the classrooms.

What does the School Nurse do? Occasionally I am asked this question. It is a hard one to answer as each day brings new and unusual requests. It is a specialized service with many diversified channels. A recent study at B.U. on the graduate level reveals that school nurses do 131 jobs.

This past year all children received routine checkups on height and weight, hearing and vision. In addition, patch testing and urinalysis were done on each child whose parents were interested.

The child with special problems receives the most attention in order to bring him or her up to maximum in health, so that the highest scholastic ability for that child may be attained.

The West Epping Community Club completed its dental clinic for the eleventh consecutive year. There were 33 pupils who went. Every child who wished to go had the opportunity and all necessary work was completed on 30 of the children. There were 25 fillings, 16 extractions and 16 cleanings.

I would like to thank all people and groups who have helped make my job easier by offering their services and financial help.

Respectfully submitted,
CONSTANCE J. HUSS, R.N.,
School Nurse-Teacher
